

SECTION 10. GRAND PRIX SERIES EVENT SCORING

a. Finish place is determined by the number of laps completed and then the position relative to other competitors. The race ends when the lead bike has crossed the finish line and receives the checkered flag.

Sponsoring clubs are cautioned to provide a suitable area for stopping AFTER the finish line.

b. A rider in a G.P. race must complete a minimum number of laps in order to be scored a finisher. MRAN requires that a rider must make at least one (1) lap for every two (2) laps completed by the leader.

2 lap race - 1 lap minimum

3 lap race - 2 lap minimum

4 lap race - 2 lap minimum

5 lap race - 3 lap minimum **note: 50cc Novice riders only are exempt from the minimum requirement.*

6 lap race - 3 lap minimum

7 lap race - 4 lap minimum

8 lap race - 4 lap minimum

9 lap race - 5 lap minimum

c. In the event a rider cannot proceed in the race, IE: breaks down, injury, stops for injured rider, etc., the rider will be scored in the race from the previous laps completed. If the rider has completed 50% of the division and class winner's laps, they will be considered a finisher, If not rider will DNF race.

d. Towing-- For safety of all riders there will be no towing at a G.P. A rider unable to proceed under his own power, race is over at point of failure. See rule section c.

e. Member clubs are responsible for scoring their own events. Member Clubs are encouraged to use the MRAN scoring system.

Yellow highlight = Trophy
